

COOLING TOWER GEARS

Amarillo Gear Company

Amarillo Series Gearbox- Single Reduction

Amarillo Series Gearbox- Double Reduction

Amarillo "A" Series Drives

The "A" Series right angle gear drives for cooling towers from AMARILLO GEAR are designed as direct replacements for the Marley® Cooling Tower line of right angle drives. Since there are no differences in the critical mounting dimensions, the "A" Series will make gear drive replacements easy. Gear housing foot patterns are identical, eliminating expensive tower gear drive support modifications.
